

Instructions for Hardrock Cleanstone KS3000

HARDROCK CLEANSTONE will remove yellowish, orange, or copper rust stains and deep seated dirt and grime from grout, marble, limestone, and other calcium based natural stone surfaces.

LIMITATIONS: This product is effective only on externally caused stains at the outer surface. It will not remove stains or discolorations coming from the inside of the stone.

CAUTION: Do not use this product on polished granite, ceramic, porcelain, glass or metal. It will etch these materials and may cause permanent damage. Do not place container on formica or any other porous surfaces.

PATCH TEST: Always test this product in a small, out of the way, area to verify the suitability of use on your particular surface before proceeding with application to a large area.

PRECAUTIONS:

1. Always wear rubber or latex gloves and boots. Contact with skin will cause severe irritation and swelling.
2. When used on a polished stone, do not allow to dry on the surface. This may cause a slight hazy or dull appearances.

INSTRUCTIONS FOR STAIN REMOVAL:

1. Apply full strength with a trigger sprayer, mop, brush, roller, or rag. Let stand 5 to 10 minutes and agitate the area with a soft bristle brush.
2. Rinse the area thoroughly with clean water.
3. If the stain is not removed completely, repeat step #1 and/or increase the amount of time you leave the solution on the surface.

INSTRUCTIONS FOR REMOVING DEEP SEATED DIRT AND GRIME:

1. Apply full strength with a sprayer, brush, or roller.
2. Allow to stand for 20 to 30 minutes. (Note: do not allow to dry on polished stone)
3. Add water, scrub with a brush and vacuum or mop off residue.
4. Rinse area thoroughly.

SAMPLE TESTING: Before using, always test each surface to be treated in a small inconspicuous area to insure the desired results will be achieved. Consult supplier for further information and precautions, including Material Safety Data Sheets.

FIRST AID: SKIN: Wash off with soap and water. Clean under fingernails. If irritation persists, call a physician. **EYES:** Flush with water for 15 minutes. Call physician. **INGESTION:** Drink large quantities of water, call a physician immediately. **INHALATION:** Get person to fresh air, if unconscious, call a physician.

Container Disposal: Rinse three times with water. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill (dump), or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay away from smoke.

Keep out of reach of children
